As the UAE continues to attract an impressive number of local and international franchising businesses, and amid social and economic recovery from the pandemic that has altered countless aspects of our lives, it is my pleasure to welcome you to the 5th edition of The Global Franchise Market – TGFM, the leading franchising event in the Middle East. This edition will be unprecedented, as it is a display of the most prominent franchising businesses around the world, and a demonstration of the success stories these businesses witnessed, especially over the past two years.

Despite the eminent challenges franchising companies have faced during the Coronavirus pandemic, many of them managed to manoeuvre through the pandemic and emerge stronger through new and creative ways of reaching customers and new business models capitalizing on online sales channels and strategies. Regardless of the business type and nature, those who succeeded were able to face the social and economic challenges posed by COVID-19 by identifying strengths and weaknesses, and taking pragmatic and swift steps towards ensuring continuity.

The success stories we have witnessed during the pandemic have been remarkable and inspiring, as prompt action and critical thinking were put to the test, and adaptability took center stage. Today, several businesses from restaurants and catering companies that offer food delivery services, to E-commerce platforms, are experiencing a surge in growth from the new demands stemming from COVID-19.

Moreover, local and international franchise brands continue to grow in the UAE across a variety of sectors, as the UAE continues to be an important and strategic location to start expansions, notwithstanding global economic slowdowns and crises, during which the UAE showed resilience. Additionally, the exceptional infrastructure, the growing population, and the UAE’s prominent position as a popular shopping destination are all vital factors for this growth. Furthermore, the UAE’s recent decision to offer long-term residence visas to mega-investors and top business leaders is not only attracting a wealth of financial capital but also encouraging global start-ups to explore franchise opportunities and target the country’s lucrative retail, food, and beverage, and hospitality sectors.

This year, TGFM exhibition brings together top-notch investors, franchisees, leading entrepreneurs, international franchise experts, and the world’s best brands to connect and discuss franchising business opportunities in the MENA region. Additionally, attendees will gain exclusive access to B2B meetings and dedicated networking sessions with the aim of facilitating collaboration and business expansion opportunities.

I would like to extend my thanks to our exhibitors, partners, and visitors for their constant support and efforts in making TGFM the leading franchising event in the Middle East, and I hope that this edition will grant visitors and participants the chance to achieve their intended results.

I look forward to seeing you all in TGFM 2021 and hope you enjoy your time in Dubai.
Besides being one of the most vibrant, lavish, and cosmopolitan cities in the world, Dubai has flourished as a dynamic international city and a regional hub for business and investments, thanks to its strategic location between the East and the West and the prospective vision of its leaders.

Dubai's economy has changed and grown across several sectors as it has transformed into a diversified, innovative service-based economy supported by the emirate's government that aims to improve the business environment, commercial transparency and accelerate productivity growth, which helps in return in gaining the investors and entrepreneurs' trust.

In the last few years, the Emirate excelled as a unique destination for meetings, conferences, and exhibitions as it hosts world-class events for professionals in almost every industry all across the world, whether it be sport, economic, humanitarian, entertainment, lifestyle or art and culture which play an important role in the business success.

Dubai is also the city where business meets leisure with abundance of activities to do ranging from shopping in the world biggest mall to more adventurous activities like the adrenaline-pumping safaris, and with its extensive road and transport system, getting around the city cannot be easier.

This metropolis does not stop growing as it keeps breaking records on many scales such as the tallest man-made structure in the world - Burj Khalifa, the world's largest shopping center – Dubai Mall, the world's tallest performing fountain – Dubai Fountain, the world's largest picture frame – Dubai Frame, one of the world's most iconic hotels -Burj Al Arab, a set of floating islands in the shape of a world map – the World Islands, and the world's busiest airport for international travel – Dubai International Airport.

Dubai is an unmatched city with great opportunities; a place to share aspirations, experiences and inspiration and a global platform for knowledge based, sustainable, innovation focused businesses.

Dubai is certainly a great example on how a city plans ahead and works on its robust progress in many fields.

Komat Qash in English is Haystack which means agricultural crops, a variety of wheat, barley, oats, corn etc. and what you can make from these seeds to bake fresh goodies with a delicious smell.

It started as a love story and developed by studying baking techniques in an institute in Australia. Living in a country like Australia where you will find all diverse communities and cultures come together, the main idea of having a Bakery house is that bread is part of every culture in the world and the main objective is to produce different types of bread to bring the diverse of communities as one.

The idea is new / breaking the rule for traditional bakeries. The name is distinct, powerful and has a deep meaning, the decor is beautiful and fits with the product and creates a feeling of comfort, warmth, and love with the smell of bread as if you were at home.

Excellence in the good taste of all our products. The presence of such products only in luxury hotels has become today accessible to everyone and with the highest quality.

We offer the finest bread with the finest coffee. Prices are affordable. One of the basics of daily life.
